REPORT OF ERYC STREETSCENE

5TH APRIL 2016

CLLR S. Halfpenny

This report is intended to be an overview of the areas of the village focused on during the local authority's visit to examine and make good the repairs and maintenance needed to enhance the community. This does not reflect all the conversations that were had in the 2hr plus meeting and village walkabout with ERYC officers and FPC councillors.

Please contact the council if you require further information regarding this report.

We, Cllrs S Halfpenny, G Rees, K Noakes & D Scullane, met with Mike Connor (Taskforce and Environmental Enforcement Officer), Rob Brown (Area Engineer, Highways) and Stuart Lazenby (Village Task Force Chargehand) on Tuesday 5th April at 9.30am.

We looked at the schedules of works produced after the last walkabout on 10 June 2014 and all that had to be completed by the village taskforce appears to have been completed. The schedule of issues outside the remit of the taskforce had been considered and some had been actioned and completed, some listed but not at top of priority list so not completed, while others had been rejected as not important enough given ERYC's depleted budget.

We learned that potholes have to be over 4cm in depth to be considered serious enough to repair.

The new list of issues to be considered by TF (Taskforce) or MW (Major Works) is as follows:

| TASKFORCE | MAJOR WORKS |
|---|--|
| Church Lane/Back Street junction and along - Potholes to be mended | Thixendale Road - Tarmac road edge damage just in area opposite concrete farm access |
| Replace fingerpost on common | Monitor road crazing Huggate Lane / Holme Farm |
| Gullies being cleaned out regularly but to speak to Steve Roberts to point out necessity (can see green tabs on them from last clean in 2015) | |
| Dig groove to divert water on Back Lane | |

| | |
|--|--|
| by green salt bin | |
| Topsoil to deep divots on side of common | |
| Sweeper due to clean Back Lane and Main Street at least in 2/3 weeks (we are village 22/23 out of 44) | |
| Weed spraying ongoing | |
| Huggate Lane opposite Glebe Cottage, Treetops and Fernside - potholes | |
| Huggate Lane byway - speak to Public right of way team Pat Wareham or Leslie Whitehead (No maintenance standards for green lanes) | |
| Prepare and Paint Benches and Tables at Common and Coronation Bench at Wold View | |
| Wold View concrete road needing fully resurfacing and more car parking spaces - speak to Integrated Transport. Will need to put a business case forward and it will be weighed up against all other requests. | |
| Path through daffodils from A166 to Seaways - spray to remove Moss | |
| Fimber Road/access & egress to Seaways - 3 potholes | |
| Unofficial layby opposite Seaways – 3t of planings | |
| Outside Ron Whitfield - 1 pot hole | |
| Corner A166/Main Street Central white lines need painting back to stop traffic going over middle | |
| Church Lane/Back Street junction and along - Potholes to be mended | |

We are to contact Environmental Services to buy a litter bin and get it sited and a weekly collection.

We are to buy Sadolin Extra Dark Pallisander Paint (enough for all benches and seats) then contact ERYC.

Ask for salt bins at Huggate Lane and Pub to be refilled.
